

Aleksey Strelkov

Python developer

EXPERIENCE

Studying to be a Python developer

NoneType

Nov 2021 - Now

I have been passionately learning Python and currently looking for opportunities to put acquired skills to good use, while bringing real benefit to my future employer! What I lack in experience - I compensate with hard work & passion to evolve.

Trainee Frontend Web developer

Humandone.com

Jun 2021 - Oct 2021

Developed websites (HTML, CSS, JS), worked with the Git version control system.

EDUCATION

Belarusian National Technical University

Design engineer.

2019 - Now

SUMMARY

About me

22 y.o. Ambitious, purposeful, independent and promising. I play volleyball, read sci-fi.

My roadmap

On the road to becoming a great Python developer. I am currently studying Python, Linux, SQL, Algorithms with Mathematics. And next I plan to study Django framework, testing and docker.
