Aleksey Strelkov

Junior Python developer

EXPERIENCE

Study to become a literate Python developer

Nov 2021 - Present

I have been passionately learning backend development and currently looking for opportunities to put aquired skills to good use, while bringing real benefit to my future employer! What I lack in experience - I compensate with hard work & passion to evolve.

Junior Frontend developer

Humandone.com

Jun 2021 - Oct 2021

Supporting existing projects. Development frontend applications, working with Git.

EDUCATION

Belarusian National Technical University

2019 - Present

Design engineer.

SUMMARY

About me

22 y.o. Volleyboller, amateur astronomer, like sci-fi. Also open to new opportunities and ideas. I want to learn GoLang as my second language and not stop there!
