Aleksey Strelkov
Python developer

EXPERIENCE

Study to become a literate Python Developer
NoneType
Nov 2021 - Now

I have been passionately learning Python and currently looking for opportunities to put aquired skills to good use, while bringing real benefit to my future employer! What I lack in experience - I compensate with hard work & passion to evolve.

Trainee Frontend Web developer
Humandone.com
Jun 2021 - Oct 2021

Supporting existing projects. Development frontend applications, working with Git.

EDUCATION

Belarusian National Technical University
Design engineer.
2019 - Now

SUMMARY

About me
22 y.o. I'm ambitious, purposeful, and responsible. Volleyboller, amateur astronomer, like sci-fi. Also open to new opportunities and ideas.

My roadmap
I'm currently actively practice writing programs and solving problems on Python. Working with Git and Linux. Learning SQL and algorithms. Next, I plan to start studying pytest, Django framework and Docker.
